- Serving It Right BC Certified.
- Medical safety training up to Red Cross Bronze Cross (CPR, Spinal Injury, Concussion, Airway).
- Counsellor-in-Training (CIT) of the Year across Canada.
- Communication in fast-paced environments.
- Quick problem-solving.

Relevant Experience

Server June – July 2019, 2020 (4 mo. cumulative)
Colossus Greek Taverna *Oakville, ON*

- Managed the service of food to multiple patrons simultaneously to ensure customer satisfaction.
- Handled cash transactions for dine-in and takeout orders.
- Resolved customer complaints and communicated with cooks to fulfill customer requests.
- Assembled takeout food orders (during COVID) under strict time constraints in a fast-paced, high-pressure environment.

Instructor May – Aug. 2021
MakerKids Leaside *Toronto, ON (Remote)*

- Taught robotics and coding to kids aged 6-13, using a variety of tools.
- Designed a custom curriculum for more advanced students.
- Developed lesson plans for a variety of skill levels.

Soccer Coach June – July 2017, 2018 (4 mo. cumulative)
Freelance

- Coached soccer for kids aged 5-12.
- Acquired clients by building rapport as a camp counsellor, creating a safe, friendly environment where parents wanted to bring their kids.

Assistant Coach May – Aug. 2021
Oakville Soccer Club *Oakville, ON*

- Assisted in training and coaching a team of 15-year-old soccer players.
- Gave personalized feedback and encouragement to each player during the game, and detailed constructive criticism after each game.

Camp Counsellor June – July 2017, 2018 (4 mo. cumulative)
Royal City Soccer Club *Oakville, ON*

- Coached soccer for kids aged 5-12, teaching them the fundamentals of the game.
- Organized up to 60 kids during lunch and pool time.
- Earned CIT (Counsellor-in-Training) of the Year across Canada.

Volunteer June – July 2016
Royal City Soccer Club *Oakville, ON*

- Volunteered at a summer soccer camp, assisting counsellors in training, organization, and supervision.

Research Assistant May – Aug. 2023
Cognitive Neuroscience of Schizophrenia Lab, BC Children's Hospital

- Streamlined a MATLAB implementation of CPCA, a regressive dimension-reduction algorithm to handle tens of gigabytes of brain fMRI data, and refactored into Python while removing over 300 lines of code and providing data visualization.

Education

University of British Columbia Sept. 2020 – May 2026
Engineering Physics
